To Whom it May Concern

**Subject: Regarding – The 33rd International Joint Conference on Artificial Intelligence (IJCAI 2024) August 3-9, 2024 in Jeju, Republic of Korea.**

Korea Tourism Organization (KTO) is submitting this letter in support of the 33rd International Joint Conference on Artificial Intelligence (IJCAI 2024) in Jeju, Republic of Korea, August 3-9, 2024, at the International Convention Center Jeju.

Korea and Jeju are extremely proud to be the host for this conference, which promotes research in Artificial Intelligence (AI) and fosters scientific exchange between researchers, practitioners, scientists, students, and engineers across the entirety of AI and its affiliated disciplines.

This conference is expected to bring approximately 3,000 delegates to Jeju from around the world. Especially, Jeju is operating a visa-free program for international travelers, allowing most travelers to stay for up to 30 days without a visa including China(Ordinary, Public Affairs, Service and Diplomatic Passport), India and many other countries, providing they satisfy the requirement of arriving via direct flight outside mainland Korea with a confirmed hotel booking confirmation and a return-flight ticket.

We look forward to welcoming conference delegates to Jeju, Republic of Korea in August 2024. We hope this letter will help them prepare for their presence.

Sincerely,

A handwritten signature in black ink, appearing to read 'Changwook Jung', is written over a large, light-colored, stylized graphic element that resembles a signature or a decorative flourish.

Changwook Jung  
Executive Director  
Korea MICE Bureau
